

Sew 10 blocks like this:

Sew 10 blocks like this:

These can be a different color in some kits or you might have to find some on the extra fabric table.

IMPORTANT
Check your bag before you start. You may have more than enough strips, or you may need more fabric. If you need more fabric look at table with extra fabrics and cut more strips. You need a total of 13 strips to sash all the squares. 8-9 should sash the big squares, 3 should sash the smaller pieces. Strips are cut 2 1/2" wide. You will need (3) 4" strips for the border. That can be another fabric.

Assemble like this:

Add 3 1/2" - 4" borders to two sides.
